

Toward an Innovative, Entrepreneurial & Global University

Universiti Teknologi Malaysia (UTM)

is Malaysia's premier university in Engineering and Technology. The University has two campuses. Its 1,148-acre main campus is located in Skudai, Johor Bahru, a technologically rich and culturally vibrant area in southern-most part of Malaysia. It is also strategically located in the Iskandar Development Region (IDR) which is to be a special economic growth centre of South Johor, apart from being the southern conurbation of Peninsular Malaysia. Its older 44-acre branch city campus is situated at Jalan Sultan Yahya Petra, in the capital city Kuala Lumpur.

UTM is committed to the highest quality of teaching, learning and research and strives to adapt to the challenges of higher education. Together with extensive international academic collaborations (with more than 50 institutions throughout the world), UTM is capable of offering competitive and exciting academic programmes. Now, the University has a wide range and depth of more than 200 academic programmes in Engineering and Technology served by more than 1392 committed graduate faculty members with broad international exposure.

UTM also has more than 30 years of experience in tertiary level engineering education and has produced more than 180,000 graduates, including 6,026 postgraduates. At present, UTM has the highest graduate student enrolment for engineering and technology programmes among other institution of higher learning in Malaysia. All programmes are recognized by the Ministry of Higher Education Malaysia and all professional programmes are fully accredited by the respective professional bodies such as the Board of Engineers Malaysia (BEM), Institution of Surveyors Malaysia (ISM), Malaysia Institute of Architects (PAM) and the Washington Accord.

Build Your Future With Us

Since it became a full-fledged university in 1975 Universiti Teknologi Malaysia (UTM) has played a pivotal role as Malaysia's largest contributor of technical and professional workforce for the local industry government agencies as well as multinational companies.

Along with its vision to be a world-class Entrepreneurial Research University, UTM is set to be the centre of academic and technological excellence. Its mission is to be a leader in the development of human capital and innovative technologies that will contribute to the nation's wealth creation.

Universiti Teknologi Malaysia (UTM) offers more than 200 academic programmes with credit transfer opportunity of up to 30%. Student can now enter **American Degree Credit Transfer Programme (ADTP)** at INTEC and continue their first degree in UTM. Intake for ADTP at INTEC is open three times a year (January, May & July). Application can be made via www.intec.edu.my

UTM offers more than 200 programmes in the following fields :

- Biosciences and Medical Engineering
- Built Environment
- Civil Engineering
- Chemical and Energy Engineering
- Computing
- Education
- Electrical Engineering
- Geoinformation and Real Estate
- Islamic Civilization
- Mechanical Engineering
- Management and Accounting
- Science
